*Conway, South Carolina* – The Myrtle Beach International Airport will host a public safety exercise called MYR 2016 *Full Scale Exercise* on Saturday, October 8 from 8:30 a.m. until 11:00 a.m. The exercise will take place in and around the airport property as well as the Myrtle Beach General Aviation Terminal.

MYR 2016 *Full Scale Exercise* is a full-scale exercise designed to train and assess the airport's ability to respond to a mass casualty/ fatality incident and to coordinate and integrate multi-agency and multi-discipline assets from local, state and federal agencies that would likely provide support and assistance in a large scale incident. Participating agencies include the following: Horry County Department of Airports, Horry County Emergency Management, Horry County Police, Horry County Fire/Rescue, Horry County E911 Dispatch, Horry County Sheriff's Office, Horry County Coroner's Office, Myrtle Beach Fire Department, and Myrtle Beach Police Department.

The public will see an influx of public safety vehicles and personnel in and around the airport. The exercise will not impact the public's day-to-day operations at the airport or access in those locations.

The scenario for the exercise is a commercial airliner crashing on approach to Myrtle Beach International Airport. There will be numerous casualties and fatalities. The debris field encompasses an area in both Horry and Georgetown Counties. The exercise will take place in the first 24-hours after the crash. The community should be advised there is no need for concern.

The Federal Aviation Administration (FAA) requires all FAR Part 139 airports to conduct a full-scale emergency exercise every three-years and tabletop exercise every other year to maintain the response effectiveness of each agency involved. This exercise will satisfy the triennial requirement.

For more information regarding *MYR 2016 Full Scale Exercise*, please call the Horry County Department of Airports at (843) 448-1580.
