He further stated that on behalf of the Administrator, entire Horry County staff, and the board of directors of the Solid Waste Authority, he had two requests to make. Number one, staff and the Solid Waste Authority fully supported the flow control ordinance and believed it was appropriate for first reading passage. Number two, certainly there was a lot of interest in this and he recommended that Council consider and the Chairman set the time for a televised workshop. He asked that it be at 6:00 p.m. on Tuesday, January 20th, at which time at a public workshop, all of the people that were for it and all the people that were against it could have their say on television and that the Council Meeting originally scheduled for that night be held immediately following. He asked that those who favored the ordinance and those who opposed the ordinance provide any documents to Council on the same time schedule as the staff was required to do. He asked that the people there that night to be put on notice that if they had any documents, any plan or anything to introduce that they make that available to the Clerk to Council as soon as possible. Mr. Weaver further stated that the ordinance had been advertised for second reading on January 20th, and if during the course of the workshop, there were issues that needed to be worked out further it could be delayed and deferred. If they thought it was appropriate to have second reading and public input at that time it would have been properly advertised. That decision could be made during the workshop. **Mr. P. Prince asked that it be completely off and just have it for the January 20th workshop.** Chairman Gilland stated they could do that. Mr. Schulz requested that Mr. Weaver bring scenarios involving the private haulers and confirm the numbers. Mr. Weaver stated he had that information and would provide that to Council on January 20th in writing. Mr. Grabowski stated he would be asking staff at the workshop about exempting C&D from the flow control ordinance and also he wanted to ask the SWA why they weren’t competitive with where the haulers were currently taking the C&D or whatever they were hauling out. Mr. Weaver further stated they would inform them completely as to what the United States Supreme Court said they could and could not do. **The motion passed unanimously.** Dan Gray spoke from the audience.
