The Vereen Memorial Historical Gardens Committee held their regularly scheduled monthly meeting on Wednesday July 14, 1999, at 5:30 p.m. in the Conference Room of the Little River Water and Sewer Authority.

I. CALL TO ORDER
Mr. Berry called the meeting to order at 5:40 p.m. A quorum was present.

II. INVOCATION
Mr. Allen Connor gave the invocation.

III. DEFER ADOPTION OF MINUTES FROM JUNE 9, 1999 UNTIL AUGUST MEETING

IV. DEFER ELECTION OF OFFICERS UNTIL AUGUST 11, MEETING
V. BI-LAWS FOR VMG
Mr. Feest stated that he was going to work with Ms. Carter to rewrite the bi-laws so that they would reflect the VMG's current status as an advisory board to the County Council. He stated that the changes would be very minimal and that they would be ready for review at the August meeting.

Mr. Berry asked Mr. Feest about the election of officers to the new committee. Mr. Feest said that he would like to defer the election of officers until the August meeting and give the board a chance to consider who they would nominate and elect. Mr. Feest continued by saying that we would meet and nominate and vote, all in the same meeting, and thus be done with the issue.

Mr. Feest stated that when the revisions were complete to the bi-laws, he would forward a copy through the US Mail to the Board so that they would have a chance to review them prior to the August meeting, they will officially adopt the new bi-laws.

VI. STAFF REPORT
Mr. Berry asked Mr. Feest to give the staff report.

Mr. Feest stated that Paul Rizzo and Associates had the contract for services in their possession. He stated that they called him today and that the contract would be signed within a few days. Mr. Feest stated that when the contract came back to his office, he would expedite it personally through the Horry County offices for signatures.

Mr. Feest re-stated the purpose of the Stone House renovation contract for services so far. He told the board that he wanted them to understand that the services that they were voting to go into contract for, were for, what he called, 'exploratory surgery' for the Stone House. He continued by stating that no new construction was going to take place during Phase one of this process. He told the board that they were approving the expenditures of $31,800 to determine what it would take to fix the house and return it to its original state from the fifties. As the board previously voted to spend the funds up to $31,800, Mr. Feest explained to the board that he wanted to see a motion to higher the contractor to assess the Stone House, or see a motion to forget the whole idea all together. Mr. Feest explained that there was an audio tape in the room and that he wanted the motion and the decision to spend the money for the Stone House on audio.

Mr. Berry as how soon could they get started on the project if we voted now. Mr. Feest stated that if the vote was taken tonite, that he could be contacting Rizzo immediately and that by the end of the month he would know how long it will take Rizzo to do phase one of this project.

Mr. Berry asked for a motion to accept the proposal of Paul Rizzo and Associates and move forward with the Stone House renovations.

Ms. Bivens clarified her notes by reiterating the three phases of the project.

Ms. Bivens motioned to spend $31,800 to assess the Stone House. The motion was seconded by Ms. Dawson. Mr. Berry asked for discussion and Mr. Watson said that he didn't feel it was fair to spend the County's money that way. He stated that he didn't feel that it was wise to spend $32,000 on the house in an effort "...to see if it was worth repairing or not."
Mr. Ariail concurred with Mr. Watson but asked if this was going to be the outfit that would actually do the work if the first phase was completed. Mr. Feest told Mr. Ariail that the decision for that would be up to the board themselves after the first part of the project was completed.

Ms. Bivens asked if this was the only response to the RFQ that we received. Mr. Feest explained that this firm was chosen from four submittals and that the County received and that it was determined through a committee that this was the most qualified to do the work. Mr. Feest explained the criteria by which the choice to use Paul Rizzo and Associates was made. He continued by sighting examples of some of the projects that Rizzo had recently completed.

Mr. Feest asked the group to consider what the maximum amount of money would be that they would consider spending on the house. Mr. Berry said that he thought it would be cheaper to tear down the house and build a new one in its place.

Mr. Ariail asked why we couldn’t just get a “ball park” figure from the contractor to fix up the house. Mr. Feest stated that the County’s procedures guiding contractual work stipulate that exact dollar amounts have to be stipulated.

Ms. Bivens asked if the contractor was obligated to put the house back to the way they found it if they decided not to move forward with the project. Mr. Feest asked the board if it was going to higher someone else to renovate the house if they didn’t like what the selected contractor had to say? He suggested that the homes’ destiny would be determined at the outcome of this phase.

Ms. Bivens expressed concern about giving such a large sum of money to any one and not making sure that the house is left the way it was found if we decide not to proceed. “…if they’re not going to put it back to the way they found it, I got a problem with giving them anything.”

Mr. Feest told Ms. Bivens “…if they tear it apart and we don’t continue with the renovations, that’s our decision. …if we say no, …that’s our decision … we are obviously leaning toward another solution. That will be to level it.”

More discussion continued regarding the Stone House. Mr. Berry suggested combining phases 1 and 2 and asking for a total dollar amount. Mr. Feest explained that the procedures for procurement dictate that the guidelines for proposals have to be very exact and explanatory. The phases could not be combined because neither side is aware of the possible damages to the house, nor the extent of the damages.

Mr. Berry asked if they were going to far exceed our minimum expenditures what are we going to do? Mr. Berry suggested that the figures being presented were far too great. He mentioned that if we were going to spend $500,000. that would not be worth it.

Mr. Feest explained to the board that if we went into this project, that the vendor was going into it with the view that it was a restoration and not a renovation. He said that they would try to restore it back to it’s original condition.

Mr. Watson asked if the house had any possibility of becoming a candidate for the National Register. Mr. Feest said that because the house was moved from its original location where the Burger King sits now, that the likelihood of National Register Status is unlikely.

Mr. Watson explained to the board that the house was in bad shape and that the foundation was in disrepair. He suggested that the house was beyond the point of giving a ballpark figure. He said that it was entirely necessary to hire the consultant to give us detailed dollar amounts.

The motion to accept the bid from Paul Rizzo and Associates was still on the table with a second. Mr. Berry asked for more discussion, seeing none he asked for those in favor. Five ye and two ne. Mr. Ariail and Mr. Watson voted to disapprove the request.
RFQ- BOARDWALK
Mr. Feest handed out a memo that he received from Glenn Cartrette of Parks and Recreation. He explained the memo to the board. He explained that the Parks and Rec. will be taking over the Boardwalk project. He said that the possibility of available funds from Accomodations Tax Committee exists and that he understood that Mr. Cartrette was going to look into that option.

Mr. Berry asked if we had funds available to start the boardwalk now. Mr. Feest explained that the money was available to do whatever the board wanted to. However, he cautioned the group not to get too many projects going at the same time.

Mr. Feest said that Mr. Cartrette told him that there were funds available to help with the lighting in the park. He said that Glenn Cartrette would be speaking with the Sante Cooper officials to find out what we need to do.

Mr. Feest asked the group to reconsider the RFP for tree removal. He suggested that the group consider going back to the RFP process and ask for bids once again. He thought that with the Fall coming around the corner, the response may be better than the last time it was ran. Ms. Dawson asked who the bid was from. Mr. Feest explained that the board had received one bid from a vendor and it was for $10,000.

The board discussed the possibilities of getting started on the boardwalk. A motion was made to begin the RFP process. Mr. Feest suggested to the board that if they went to bid one more time, that they could potentially get the park cleared after the hurricane season.

Mr. Feest said that he would get the RFQ together for the newspaper and run it that week (week of July 19-23, 1999) and that the bids would be ready for the consideration of Procurement by the next meeting.

Mr. Ariail moved to go to bid for up to $10,000 to clear the park of hazardous trees and nuisances. The motion was seconded by Mr. Connors. The vote was unanimous.

V. OTHER BUSINESS
Mr. Berry asked how long it would take to get something going on the boardwalk. Mr. Feest said that it would be up to Mr. Cartrette at Parks and Rec.

Mr. Spalding motioned to go to bid for the boardwalk, it was seconded by Mr. Watson. The vote was unanimous.

A discussion continued about the amount of funds that the committee had available to spend and how much they should spend on the Stone House verses other projects that are on the docket.

Ms. Dawson mentioned that the road in the gardens was washing out again.

Hearing no more business, Mr. Berry adjourned the meeting.

I. CALL TO ORDER
Mr. Berry called the meeting to order at 5:40 p.m. A quorum was present.

II. INVOCATION
Mr. Allen Connor gave the invocation.

III. ADOPTION OF MINUTES FROM FEBRUARY 10, 1999
Mr. Long motioned to adopt the minutes and Mr. Watson seconded that. The vote was unanimous.
IV. STAFF REPORT

Mr. Berry asked Mr. Feest to give the staff report. Mr. Feest stated that the committee to choose an architect for the Stone House renovations will meet on March 18, 1999 and that an architect will be chosen. He continued by saying that it was not official yet because he would have to ok it through the office of procurement, and he asked that nobody tell the public yet.

Mr. Skidmore asked if money had been discussed yet. Mr. Feest said that it was mentioned to him that we were going to work from the SOQ and just move forward with the renovations. He said that it was determined that the job was small enough that the money in the budget was enough to cover the cost of renovations and to get started on the boardwalk.

Ms. Wren asked what the timeline was going to be from this point on into the future regarding the development of the park. Mr. Feest said that he wanted to notify the architect by next month’s meeting (April) and meet with the firm regarding a timeline. He continued by saying that he would expect the architect to set the timeline and that staff would approve of it.

Mr. Skidmore explained to the committee that the money that was available for the Gardens was to be used for the house renovations, the forestry project and to get the boardwalk started.

Mr. Crowely asked if the logger would take trees off of the adjacent properties. Mr. Feest said that it would be up to the logger and not the County.

Mr. Ariail ask to see a schedule of what the committee is going to do, and how it is going to be accomplished.

Mr. Skidmore explained to the board that Mr. Feest can only spend so much time on VMG work. He expressed that the county has other demands on Mr. Feest’s time. He asked the board to remember that they are on the way to improving the Gardens now, and that this is the farthest they’ve been in a long time.

Mr. Ariail asked if the new board was open to any person?

Mr. Skidmore stated that it was open to anyone and that they would be appointed by the Council. He continued by saying that when twelve people express interest in being part of the committee, the council has to make choices as to who they will appoint. Mr. Skidmore asked the board if they had an idea of a fair way to choose the new committee?
Mr. Watson stated that he would like to see people from the Little River area serve because they seem to be the most concerned about the Gardens.

Mr. Ariail stated that the council should consider the geographical area that the applicants come from and that preference should be given to those individuals who come from this area.

Mr. Crowely also stated that he would like to see people from this area on the board.

Mr. Feest stated that he would be requesting two minor changes to the ordinance. The first revision will be to reduce the number of members from ten to eight, and the second will be to change the appointment of board members from, “…the resident council person.” to, “…the council body.”

Mr. Skidmore agreed.

Mr. Connor motioned to accept the changes and it was seconded by Mr. Watson, the vote was unanimous.

Mr. Skidmore stated that the budget for vmg had been set and that the funds currently available for the Gardens would carry over into this next fiscal year.

Mr. Berry asked for any other business, hearing none, Mr. Watson motioned to adjourn the meeting, it was seconded by Mr. Spalding.

The meeting was adjourned at 6.55 p.m.

Mrs. Tempe Oehler  
Mrs. Jane Charles  

Members Absent:

Staff Present:

Honorable Councilman, Ray Skidmore, District #1  

The Horry County Board of Architectural Review held their regularly scheduled monthly meeting on Tuesday, February 23, 1999, at 5:30 p.m. in the Conference Room of the Conway Burroughs School Complex, Conway, South Carolina.  

I. CALL TO ORDER  
Mr. Carter called the meeting to order at 5:40 p.m. A quorum was present.  

II. INVOCATION  
Mr. Long gave the invocation.  

III. ADOPTION OF MINUTES FROM MEETING OF JANUARY 26, 1999  
Ms. Oehler asked that the attendance from the meeting of January 26, 1999 be corrected to show that she was not present. Mr. Feest said that he would make the correction and that he remembered that she was out sick for that meeting.  

Ms. Oehler than made a motion to adopt the minutes with that revision. Assistant Chairperson Fuller made a second and the vote was unanimous.
IV. MR. SKIDMORE - VMG ORDINANCE
Chairman Carter welcomed Councilman Skidmore to the meeting and explained that Mr. Skidmore was present to answer questions about the Board’s concerns regarding the formation of the new VMG committee. He then asked Mr. Skidmore to present himself.

Mr. Skidmore told the members that he was concerned that there questions were going unanswered and that he wanted to take this time to address the issues that they thought were important in the formation of the new VMG committee. He continued by informing the Board of a meeting that took place several months ago with the VMG where they voiced concerns about the slow nature of the development of the Vereen Memorial Historical Gardens. The result of the meeting was that the VMG committee was not able to get anything accomplished because it could not make decisions regarding the park or contents in the park with out having to go through many committees.

Mr. Skidmore stated that the committee asked why they couldn’t be re-established as a separate committee to make recommendations directly to County Council to help avoid the delay of progress with the development of the Gardens. Mr. Skidmore stated that he thought it was a good idea and that the county was ready to move ahead with the process of developing the park.

Mrs. Oehler asked if the park was going to be developed as the VMG saw fit, or would they have to adhere to some kind of plan like the Master Plan that was previously adopted by County Council?

Mr. Skidmore stated that the development of the park would adhere to the current Master Plan that was previously adopted by County Council and that any revisions or changes to that Master Plan would still have to be reviewed by the BAR as the Gardens is a historical site.

Mr. Skidmore continued by assuring the Board that any construction of new buildings would also need the approval of the BAR.

Chairman Carter stated that he forwarded a copy of the proposed ordinance to South Carolina Archives and History and that they didn’t really understand the wording. He asked if some revisions could be made to the document to help guarantee that the BAR would have an interest in the historical aspects of the development of the Gardens.
Mr. Skidmore stated that he had no problems with that.

Mrs. Oehler asked if the new committee would be working with the BAR in making decisions?

Mr. Skidmore said that the new committee would be appointed by the County Council and that they would operate under the direction of County Council. Somebody asked about the funds in the VMG account. Mr. Skidmore said that the money in the VMG account was for the development of the gardens, (i.e. the Boardwalk, the Stone House and whatever else would go on in the park.) He continued by saying that as members of the BAR, money could be accepted from private donations and used as the group saw fit.

Mrs. Oehler expressed concern because the BAR had laid out the Master Plan for the park and that she thought the BAR should make sure that the plan was adhered to. Mr. Skidmore assured her that the new committee would have to adhere to the plan and that any deviations from it would have to go through the BAR.

Mr. Skidmore stated that the basic reason for the formation of this committee was to ensure a speedy development process from now on. He continued by saying that money has been in an account for a number of years and that it is not being spent on anything. He said that it was going to be hard to convince Council that we needed to appropriate monies in the future if we didn’t start spending it on something now.

Vice Chairperson Fuller asked if the BAR could suggest an amendment to the ordinance the would call for BAR approval in any situation where the new committee may deviate from the current Master Plan?

Mr. Skidmore stated that he had no problem with that.

Mrs. Oehler asked if this new ordinance met with federal regulations regarding the duties and responsibilities of the historic preservation guidelines.

Mr. Feest stated that the ordinance was put together by the legal staff from the County and that he understood it to be patterned after other such ordinances already in place in other jurisdictions.

Mr. Long stated that from what he could see from this new ordinance, the new committee would not answer to the BAR at all. Mr. Skidmore said that he was correct as far as the development of the park in coherence to the current Master Plan.
Chairman Carter stated that he thought that there was a ‘disconnect’ between the VMG and the BAR in the review of the historic part. He continued by saying that he did not have a problem with the VMG being the ‘go-getters’ on part of this, but he wanted some assurance that the VMG would adhere to historic standards set forth by the Master Plan.

Mrs. Charles asked if, “…changes would still come before us, than why change the structure of the committee?”

Mr. Skidmore stated that the new committee would have the Master plan as it was recommended to Council by the BAR and adopted by Council. He continued by saying that we can add language to the ordinance that says that the BAR will have to approve any changes to the Master Plan in the future.

Mrs. Charles stated that we would need to set some kind of standards for members of this new committee. She thought that maybe some guidelines could be set that would require membership to consist of a representation of members throughout the county for enrollment to the VMG Committee.

Mr. Skidmore said that he thought that this could be limiting ourselves in the future as far as having good input. He continued by saying that most of the members of the committee are concerned with the development of the gardens and that almost all of them live in the Little River area. He mentioned that it might be kind of hard for the committee to assume that some one may drive from Myrtle Beach on a monthly basis regarding the development of a park in the Little River area.

Chairman Carter explained that a lot of the slow process regarding the development of the Gardens was taking place because of the fact that the BAR never sees the numbers regarding the park’s expenditures. He also stated that the Staff turnover has been so great that it’s been hard to keep up with new developments and changes.

Mrs. Charles also stated that there has been, “…no continuity with staff.”

Mr. Skidmore stated that no body was blaming the BAR or Staff for the delays.

Mrs. Charles asked if there was any way that this new ordinance was conflicting with the reversionary clause in the VMG documents regarding the Garden’s.

Mr. Skidmore stated that he didn’t see a problem with that.
Mr. Skidmore asked Mr. Feest and Chairman Carter if they could get together to make some revisions to the ordinance as was discussed earlier.

Mr. Feest and Chairman Carter decided that they would have revisions completed in time for the ordinance to go into second reading on March 16, 1999.

Mrs. Charles stated that her main concern was that some sort of ‘hodge podge’ development of the park was not going to occur.

Mr. Skidmore assured Mrs. Charles that the new committee would adhere to the Master Plan and that changes to the plan would still go through the BAR.

Chairman Carter asked if there were any more questions. Hearing none, he moved to the next item on the agenda at which time Councilman Skidmore excused himself.

V. HISTORIC PRESERVATION WEEK - VICE CHAIRPERSON FULLER
Ms. Fuller had to leave the meeting at this time so Mr. Feest asked the board to review the packet of information she had set before them and come up with one or two volunteers to help with her ideas.

Chairman Carter asked for volunteers. Hearing none he stated that he thought that he could help Ms. Fuller with some activities to plan for National Historic Preservation Week.

Chairman Carter moved to the next item on the agenda.

VI. FINAL PROOF OF HISTORICAL BROCHURE
Mr. Feest stated that he was having a very hard time acquiring a county map to attach to the brochure. He said that the publisher was concerned with copyright laws when using a map from the phone book or some other source where the map was already in print.

Mrs. Oehler asked if we could get a map from the South Carolina Tourism Board. Mrs. Charles thought that was a good idea.

Mr. Carter stated that if we’d make a small change to any map that we use, than it wouldn’t be copyright infringement.
Mr. Feest said that we would need to get the map in a software form that the publisher could download and work with. He continued by stating that the county's ability to provide that to the publisher was very limited and that the county would not be able to do it.

Mr. Carter said that he would work on that issue and get back to Mr. Feest.

Mr. Feest stated that he would get in touch with the Myrtle Beach Planning Department to see if there was anything that they could do to help.

Chairman Carter asked if there was any other business. Hearing none, Mrs. Charles motioned to adjourn the meeting. The motion was seconded by Mr. Long. The meeting adjourned at 7:45 p.m.

The Vereen Memorial Historical Gardens Committee held their regularly scheduled monthly meeting on Wednesday, February 10, 1999, at 5:30 p.m. in the conference room of the Little River Water and Sewer Authority.  

I. CALL TO ORDER
Mr. Ariail called the meeting to order at 5:40 p.m. as Mr. C. B. Berry was not yet present.  

II. INVOCATION
Mr. Allen Connor gave the invocation.  

III. ADOPTION OF MINUTES
Mr. Ariail asked everyone present to take a minute and review the minutes from the meeting of January 13, 1999.  

Mr. Berry arrived at 5:50 p.m.
After some deliberation and some grammatical revisions, Mr. Berry made a motion to adopt the minutes with revisions. The motion was seconded by Mr. Spalding and the vote was unanimous.

IV. STAFF REPORT

Mr. Berry asked Mr. Feest to give the Staff Report. Mr. Feest said that the Statement of Qualifications (SOQ) packets were in the office and that the county had received four of them. He said that he was assembling a committee consisting of five to six qualified personnel from the county and that the committee would meet during the week of March 1, 1999. He continued by stating that the qualifications looked good at first glance and that he was confident that a firm would be selected by the next scheduled meeting of the VMG.

Mr. Spalding asked Mr. Feest if the county had liability insurance for the park. Mr. Feest said that he would safely assume that the county would not own property without liability insurance on it.

Mr. Ariail asked Mr. Feest what the status was on the Boardwalk. Mr. Feest said that the permits did arrive in the office and that he was filling out paperwork pertaining to the permit process. Mr. Ariail wanted to know when we were going to get started on the construction of the Boardwalk.

Mr. Feest responded by saying that he thought it was best if we concentrated on the Stone House project and the RFQ process currently under way for the forestry project. He also said that there would be enough paperwork created with these two projects in hand that he would keep up with. Mr. Feest continued by saying that he was intentionally backing up the Boardwalk project so that the committee could concentrate on the two projects at hand, the Stone House and the forestry logging.

Ms. Dawson asked if parking was going to be installed down by the boardwalk. Mr. Feest stated that he needed to check the original proposal to find out if the contractor was supposed to install it at the time the roads were installed. If so, then the contractor would have to install parking per the bid. Mr. Feest said that if the contractor had fulfilled his agreement satisfactorily, than we would have to go through the bidding process through the county and get parking installed.
Mr. Spalding asked if the boundary line at the end of the park was properly marked, along Evergreen Heights. Mr. Berry said that he had been to the park and that he had ‘flagged’ that end so it should be clearly marked.

Mr. Feest gave an update on the progress regarding the new VMG ordinance. He stated that the ordinance made it through first reading at County Council on February 2, 1999, and that if all went well, the ordinance would come into effect on March 16, 1999. He also suggested to the board that they write letters of intent to be on the new board and forward them to Mr. Skidmore so that if the ordinance comes through, there would be ample opportunity to appoint new members.

Mr. Ariail asked if the current members would automatically be appointed to the new board. Mr. Feest responded by saying that he wasn’t sure and that is why he thought that all interested parties should get their letters of intent to Mr. Skidmore. Mr. Feest continued by saying that he new of one or maybe two community groups that were interested in getting a representative appointed to the board.

V. OTHER BUSINESS

Mr. Berry asked is there was any other business. Mr. Crowely said that he spoke to Ms. Abbot about donating the portion of the island that was in her ownership and that she was not interested in donating it. He stated that she showed interest in selling the property and that he thought that the county should call her if interested. Mr. Feest asked if Mr. Abbot was ever offered a price for the property. Mr. Crowely said that he was not sure.

Mr. Feest said, “I think that with all the irons we have in the fire at this time, that we should try to take care of what we have going on right now and if the land is still available when we are ready, the county can look into buying it then.” Mr. Feest also stated that if the land wasn’t available when we were ready, that we could erect a fence to separate the county side from the private ownership side.

Mr. Feest suggested that the board forget about the island for now and proceed with the current matters at hand; the Stone House renovation, the Boardwalk construction and the forestry logging project.

Mr. Watson made a motion to exclude the purchase of the island from the current agenda of the VMG and to proceed with the three projects Mr. Feest had mentioned. The motion was seconded by Mr. Connor and the vote was unanimous.
Mr. Spalding suggested that we may be slighting Mr. Seagraves who was the current owner of the Stone house when it was given to the county. He stated that Mr. Seagraves actually donated the house to the county and that he thought that some how that name of the house and project should reflect that.

Mr. Berry responded by saying it would probably be more appropriate to erect a plaque in or near the house, possibly on a stone, that would commemorate Mr. Seagraves for his kindness.

Mr. Spalding agreed, that might be a good solution.

Mr. Berry asked if there was any other business. Hearing none he motioned to adjourn the meeting. The motion was seconded by Mr. Ariail, and the meeting was adjourned at 6:55 p. m.

IV. SCA&H SURVEY & PLANNING GRANT
Mr. Feest stated that he would be attending a seminar in Columbia on January 29, 1999 as a requirement by South Carolina Department of Archives and History grant. He said that he was going to learn more about the procurement process through the state and that the agenda included the conditions placed upon reimbursement of funds for the Historic Preservation study.

V. HISTORICAL BROCHURE-PROOF
Mr. Carter suggested that a different photo be used in the brochure that depicts the Pine Lakes home from the rear side of the building. He thought it would be a better angle.

Mrs. Oehler agreed. Mr. Feest said that he would meet with Mr. Bruno on the photo and get back with the BAR on the results.

Mr. Carter expressed concern that we did not have a county map on the brochure. He thought that the County should be on the brochure so that people could find their way around to visit the sites depicted in the brochure.

Mr. Feest suggested that the State map be removed and a county map be inserted in its place. The quorum agreed. Mr. Feest stated that he would meet with the GIS department at the county and try to produce a county map that will suffice.

Mr. Feest past out a color copy for proofing and asked if the colors met with everyone’s approval. The quorum agreed that the colors were ok. Mrs. Oehler asked if Mr. Feest could make copies of the brochure so that everyone could proof the text. Mr. Feest stated that he would make copies and have them delivered to everyone within four days. Mr. Feest also asked the Board to please review the text and forward their editing comments to him by March 04, 1999. Every one agreed.
VI. STAFF REPORT

Mr. Feest stated that he had spoken to the procurement office and that the response appeared to be rather good with respect to the RFQ. He also said that he would be forming a committee in the last week of February, 1999 to discuss the results of the RFQs and to choose an architect to do the job.

Mr. Feest asked if there were any questions, there were no questions.

VII. 1999-CALENDAR
Mr. Carter asked everyone to look over the proposed calendar for the 1999 monthly meetings. Mr. Feest said that he had already checked the dates with the Caipin Memorial Library and that he and enclosed a copy of a FAX transmission confirming that the dates for the library could be reserved.

Mr. Long made a motion to adopt the calendar for the 1999 monthly meetings of the BAR. The motion was seconded by Mrs. Fuller and the Board voted unanimously to accept the calendar as is.

VIII. OTHER BUSINESS
Mr. Carter mentioned that we need to discuss a method for distributing the brochures upon completion.

Mrs. Fuller said that we could start by taking them to the SC Tourist Bureau and that they would take care of state-wide distribution of the brochures. She also mentioned that there was an informative web site that does a monthly newsletter of ideas on how to get people involved with historic preservation ideas.

Mr. Carter suggested that we have some sort of photo contest to generate participation from school-age children where they send in a photo of a historic place. The photos will then become the property of the BAR and we can start to create a larger library of photos.
Mr. Feest said that he would advertise the calendar for the monthly meetings in the Sunday paper on February 7, 1999.

Mr. Carter asked if there was any other business. There was none. He motioned that the meeting adjourn at 7.05 p.m.
