REPORT OF VISIT TO
THE HORRY COUNTY JAIL

Made June 22, 1922, By Asst. Secretary H.C. Brearley.

The Horry jail is in practically its usual condition. Some additional blankets and a few mattresses have been purchased. The mattresses and covers are now clean and in good order, but removable covers should be supplied. If the dieting fee of fifty cents a day is not sufficient to provide them, the fees should be increased so that three prisoners have no toilet facilities.
