Special Flood Hazard Area (SFHA) - The SFHA is an area that would be inundated by the flood having a 1 percent chance of being exceeded in any given year (base flood).

ADDITIONAL CONSIDERATIONS (Please refer to the appropriate section on Attachment 1 for the additional considerations listed below.)

70.F.A. STUDY UNDERWAY

This document provides the Federal Emergency Management Agency's determination regarding a request for a Letter of Map Amendment for the property described above. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we have determined that the structure(s) on the property(ies) below located in the SFHA, an area inundated by the flood having a 1 percent chance of being exceeded in any given year (base flood). Therefore, flood insurance is required for the property described above. The lowest adjacent grade elevation to a structure must be at or above the Base Flood Elevation for a structure to be outside of the SFHA.

This determination is based on the flood data primarily available. The enclosed documents provide additional information regarding this determination and options for obtaining a Letter of Map Amendment. If you have any questions about this decision, please contact the FEMA Map Assistance Center toll free at (877) 586-2677 (877 FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, 3001 Eisenhower Avenue, Suite 130, Alexandria, VA 22334 9439.
