Are there Restrictive Covenants on this property that prohibit or conflict with this request? Y  N

A variance may be granted in an individual case of unnecessary hardship if the Board makes and explains in writing the finding as stated below:

1. There are extraordinary and exceptional conditions pertaining to the particular piece of property.
2. These conditions do not generally apply to other property in the vicinity.
3. Because of these conditions, the application of the ordinance to the particular piece of property would effectively prohibit or unreasonably restrict the utilization of the property.
4. The authorization of a variance will not be of substantial detriment to adjacent property or to the public good, and the character of the district will not be harmed by the granting of the variance.
5. The Board may not grant a variance the effect of which would be to allow the establishment of a use not otherwise permitted in a zoning district, to extend physically a nonconforming use of land, or change the zoning district boundaries shown on the official zoning map. The fact that property may be utilized more profitably, should a variance be granted, may not be considered grounds for a variance.

To the best of your ability please explain in detail how the aforementioned findings apply to your request: (may include attachments)
